THIS WORK is fold in Sheets, for the Conveniency of those Schoolmasters who are studious to avoid Expence to the Friends of their Pupils, as a single Book may be divided among Three or Four Classes, stitched in Blue or Marble-Paper Covers, and a numerous School be supplied with Lists of Words in Spelling at a less Expence than would attend the Purchase of Two or Three Books of any Kind now in use. Those Gentlemen who prefer them bound may have them done at the Stationer's, where they are bought, at a small additional Expence.

Should this Edition (of which there were but a small Number printed) meet with the Approbation of the Gentlemen of the Profession, a more numerous One will be speedily taken off (with Corrections and Improvements), and sold at a lower Price, as Utility, and not Profit, is the Aim of the Proprietor in the Publication of this little Work.

## SPELLING LESSONS,

Consisting of Words in general Use  
from two to seven Syllables.
